TIME

BE FAST: Balance - Eyes - Face - Arms - Speech - Time to call 911

If stroke is suspected, call 911 immediately. Do not drive yourself.

You found the words - and a few stroke-awareness reminders too!

A quick awareness takeaway

Stroke symptoms can appear suddenly. Remember BE FAST and treat every possible stroke as an emergency. Knowing the signs - and acting quickly - can help save a life. Share this puzzle with your community.

Awareness starts with one conversation.
